## **Research Study on Attitudes about Brain Imaging and Genetic Testing**

Researchers at the University of British Columbia are interested in your views about brain imaging, genetic testing, and mental health.

**You may be eligible to participate in this study if you are a parent of a child (19 years or younger) diagnosed with:**

❖ **A mood disorder**

**OR**

❖ **OCD**

The study will involve an interview about your views on either brain imaging or genetic testing in mental health, scheduled at your convenience, lasting for 30-45 minutes, at the University of British Columbia.

Compensation for participating is a \$50 gift certificate, and \$10 to cover parking or transportation expenses.
